

VENUE

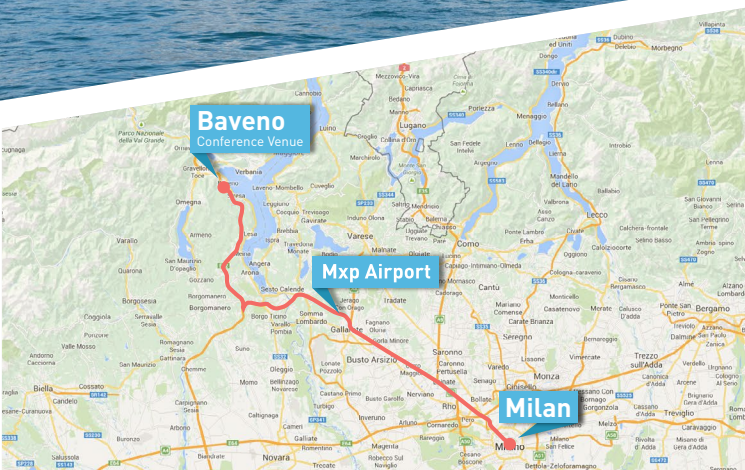

GRAND HOTEL DINO

Baveno, Italy

Directly overlooking Lake Maggiore, the Grand Hotel Dino is the most important tourist structure on the lake and offers a unique and charming view of the Borromean Islands. The strategic location and the short distance from the Milano Malpensa international airport help to make this location a unique solution.

Grand Hotel Dino offers one of the most vanguard conference centres in Europe. The thirty-six modular meeting rooms with a maximum capacity of 1200 seats and forty study rooms for 12-20 seats are equipped with the most advanced technologies. After the conference, for the wellbeing and relaxation, at full disposal of all guests, panoramic restaurants, health club and wellness centre with indoor and outdoor swimming pools. A full range of activities and excursions in Lake Maggiore, Milan and on their surrounding areas will be arranged for participants and accompanying people.

Special rates will be provided for conference participants. Booking online at www.wcpam2017.com

The European Pavement and Asset Management Conference and The International Conference on Managing Pavement Assets are joining forces for

CONFERENCE DATES

Abstract due | **March 13, 2016**

Abstract acceptance decision | **April 24, 2016**

Draft paper submission | **September 30, 2016**

Reviews back | **November 20, 2016**

Registration opens | **January 1, 2017**

Revised papers | **January 11, 2017**

Final acceptance | **January 25, 2017**

Camera-ready papers | **March 19, 2017**

Early-bird registration ends | **March 26, 2017**

Regular registration opens | **March 27, 2017**

Regular registration ends | **June 11, 2017**

On-site registration | **June 12-16, 2017**

THEMES & STRUCTURE

The conference will include research findings, best practices and case studies, involving countries from all over the world, about road and airport pavements and other assets:

- Maintenance, Preservation and Rehabilitation activities;
- Pavement Management Systems;
- Data monitoring and performance assessment;
- Economic, environmental and political strategies;
- Life-cycle cost analysis and life-cycle assessment;
- Safety and risk management;
- Innovative design methods and materials;
- Smart infrastructures and Intelligent Transportation Systems;
- Bridge and tunnel pavements.

The conference program includes the following:

- an extensive **technical program** including **parallel podium/poster sessions, technical tours** and **tutorials**;
- **plenary sessions** including presentations by leaders in the field of pavement engineering;
- **exhibits of international companies** driving innovation and quality in pavement engineering, construction and maintenance techniques.

Key-note lectures, 4 parallel sessions, 112 podium presentations, forums & open discussions, interactive meetings, poster presentations and much more.

Participants will:

- **actively involved** in discussions and working groups;
- **improve their knowledge** on asset management;
- **take the know-how back** to their own business.

PRELIMINARY PROGRAM

DAY 1 | June 12

- On-site registration opens
- Tutorials
- Young professional & student events
- Opening reception

DAY 2 | June 13

- Welcome and Opening Plenary Lecture
- Concurrent Technical Session 1
- Lunch & Poster Session
- Concurrent Technical Session 2

DAY 3 | June 14

- Concurrent Technical Session 3
- Concurrent Technical Session 4
- Lunch & Poster Session
- Concurrent Technical Session 5
- Gala Event

DAY 4 | June 15

- Concurrent Technical Session 6
- Concurrent Technical Session 7
- Lunch
- Plenary session:
Meet the National and International Authorities
Meet the press and social media
Best Paper Award - Closing Ceremony

DAY 5 | June 16

- Technical tours
