TOOLS FOR THE ROAD AHEAD

SHRP2 Solutions

Now that the research phase of SHRP 2 has ended, the Federal Highway Administration (FHWA) and the American Association of State Highway and Transportation Officials (AASHTO) are responsible for implementing the resulting products known as SHRP2 Solutions.

FHWA and AASHTO, with support from TRB, have developed a three-year plan to guide implementation of the highest priority SHRP2 Solutions. To learn more about the three-year plan and SHRP2 Solutions please visit the links below which take you to websites maintained by [FHWA](#) and [AASHTO](#).

El programa SHRP2 (second Strategic Highway Research Program 2006-2015) ya ha sido incluido en esta sección de proyectos de I+D+i. La razón por la que se ha vuelto a citar es que, tras finalizar la fase de I+D, en dicha iniciativa se ha añadido un programa de promoción de los desarrollos más relevantes obtenidos a lo largo del proyecto.

Tanto a través de la Federal Highway Administration como de AASHTO se están desarrollando actividades encaminadas a la promoción de la innovación, es decir, la llegada al

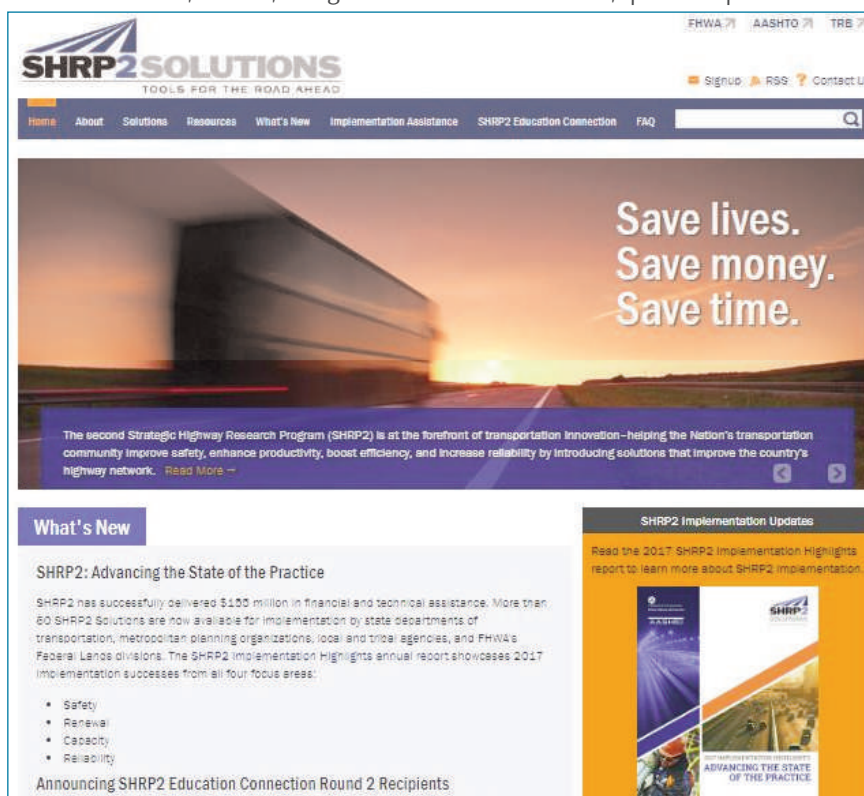

mercado del conocimiento ya generado.

En los siguientes enlaces se puede encontrar información de dichas actividades de promoción:

<http://shrp2.transportation.org/Pages/Default.aspx>

<https://www.fhwa.dot.gov/goshrp2>

Este enfoque es especialmente valioso, ya que las propias administraciones de carreteras lideran el proceso de innovación dando continuidad a la iniciativa de generación de conocimiento, que corresponde al concepto de I+D.

SHRP2: Advancing the State of the Practice

SHRP2 has successfully delivered \$100 million in financial and technical assistance. More than 60 SHRP2 Solutions are now available for implementation by state departments of transportation, metropolitan planning organizations, local and tribal agencies, and FHWA's Federal Lands divisions. The SHRP2 Implementation Highlights annual report showcases 2017 implementation successes from all four focus areas:

- Safety
- Renewal
- Capacity
- Reliability
