

European Asphalt Pavement Association

Newsletter 30 August 2021

EAPA's YouTube Channel

Do you know that EAPA has recently created its own YouTube channel? Several videos have already been provided on this platform, e.g. an EAPA Technical Talk with Davide LoPresti and Breixo Gomez, videos related to the E&E Congress 2021 and the EAPA Webinar Sustainability Assessment of Asphalt Pavements. Just recently the first "Generation Asphalt" video on re-use has been finalised, featuring EAPA Technical Director Breixo Gomez to explain "The largest thing you can re-use".

Get connected to the EAPA YouTube Channel and receive all information on asphalt-related topics and the industry in the future.
